# THE FIERY FURNACE. AN IDIOT CASTS A BELL, AND RE-

wharves in the town of B-, a gang of workmen were getting ready to east the largest bell of the St. John's Cathedral chime. Only an hour more, and they would let the glaring, bubbling metal flow from the huge furnace into the mold which was buried deep in the black earth close by.

It was just at evening, and in the gathering twilight the lurid blue flames that burst from the top of the small chimney flashed unearthly gleams upon the neighboring windows and

The scene within the foundry was wierd and almost awful. The swarthy forms of the workmen, partly lighted by the yellow glare, moved about like Tartarian shadows, and the sooty beams and ponderous chains crossing, half black, half golden under the glowing roof, recalled the engines of the Cyclops under Mt.

The town clock struck six. It was time for supper. All the men threw down their tools, and hastened to put on their outer clothing. "Be back in half an hour, sharp!" cried the

open their eyes. There was never such a bell east in the whole State as this one will be." In a moment more only one workman and the master were left in the foundry. The former was to stay and watch the "blast." He had brought a double allowance of dinner, and would make a supper on what remained.

"Perhaps you can get the 'Inventor' to stay with you, George," said the master laughingly, as he prepared to go.

"Yes, where is he?" returned the man in the same jesting tone. "He's been round the founwrong. Hollo! hollo! I say! Where's the 'Inventor?' Ah, there he is! Come here!" And in silent answer to the summons, a shock-haired fellow, with large gray eyes and a pale, vacant face, appeared from behind a pile of castings. He had on his back a grey shirt, much pantaloons, held up by a single suspender.

"Well, Mopus," quoth the man George, slapping him rather roughly on the shoulder; "suppose you've got wit enough to help yell if anything's the matter?"

I was therefore, determined to change the crop, and oats were put upon eight acres of the land, which was then seeded to clover to enrich it. The crop of oats was a fair one; the clover took well and covered the ground well by fall. In the spring (the latter part of May) the land was ploughed and put, with the rest of the island, to broom corn. This was not so intended when the clover was sown, but to grow a crop the second season turned down. It was said to be a mere waste of send in the case of the vonner seeding. But the result was altogether differ-

The oat crop could not have been the cause of this, as the oat is a severe exhauster of the soil. It must then have been the clover, or rather the roots of the clover.

### Governor Tilden's Religious Views. We clip the following from the Goldsboro

Messenger : "Gov. Tilden is a Presbyterian in religion. Some of the Republican papers have already begun to talk of the Governor's religious views. This, says the New York World, is in accordance with the spirit of their party, which would meddle and interfere with every man's religion. Since they are anxious to know what Governor Tihlen's religious creed is, we may inform them that he believes in the Gospel of St. Matthew. who sat at the receipt of customs and saw that the Government got what belonged to it, and does not believe in the practice of Judas, who bore a bag for the disciples and kept what was put therein. This is the religion that he has established at Albany, and which good men of all parties and of all religious faiths admit is very much needed at Washington. The lack of that kind of religious views at the national capital has led to the demoralization, fraud and corruption known as Grantism. This alone is sufficient for the people of this country to send Governor Tilden to Washington armed with full authority to commence a revival there on the 4th of next March.

### Southern Outrages.

Bad wite men are again at work inciting the colored people to commit depredations and by various means annoy the white people in order to irritate them to such an extent as to make forbearance cease to be a virtue-all for politi-

We hope the Northern people have heard enough of these things to enable them to take a proper view of the periodical outrages manufactured for campaign purposes, and not attribute them to disaffection or animosity on the part af the native white Southern population. We repeat, bad white men are the prime movers in these local outbreaks, and the Conservative Democratic Southern people regret such occurrences very much, being very well aware of the tendency and effect which they may have abroad. It would be the height of folly for the Southerners to encourage anything of the kind. In South Carolina, upon the heel of the Hamburg affair, where an evil disposed mob of riotous negroes caused trouble, which we hope will be thoroughly and fairly investigated, comes the insolent conduct of a negro mob at

averted by the prudence and forbearance of the white citizens. Five thousand negroes assembled at Abbeville, July 28th, to see the hanging of Coleman, the negro murderer. Many of them were armed. Great excitement prevailed in the town during the day and night, and it was with great difficulty that the negroes were restrained from atempting violence to the whites. Addresses were delivered by older and more prominent citizens in the interest of peace and order. The bar-rooms were closed by the intendant, but were soon re-opened and whisky flowed freely. The town marshals were powerless to control the crowd, and were ordered not to attempt any arrests for fear of precipitating a collision. Coleman's reprieve was read at the court-house by the sheriff, in the hope of dispersing the crowd, but had no such effect. After nightfall matters grew worse. Armed negroes occupied the court-house and all the public streets, menacing the citizens and following them to their homes. Guns and bayonets were furnished to a large number of negroes who were quartered at the jail and the officers of the negro militia took command, it is said, of the armed rioters. Fire arms were discharged in all parts of the town during the night. To the forbearance of the whites, says | ged grasshoppers" as Vance called them, they the Abbeville Medium, is due the fact that the affair did not end in bloodshed. The reprieve

Judge Settle opened the debate in quite a dignified and chaste style, and occupied his time of one hour and a half; but we must confess that we did not expect such entire failure on the part of Judge Settle to meet the issues of the canvass, the time being most exclusively devoted to questions growing out of the late war, which, in no sense, were relative to the great questions before the people. The whole point in the effort of Settle was to rouse the prejudice of the people growing out of the war, and out of the kuklux organization.

We had never before heard the war record of Governor Vance, in its detail, but having heard it, we think that instead of its injuring Governor Vance, it will show him not only an hon-est, devoted patriot, but a brave soldier and a statesman almost without an equal at this time. Judge Settle failed to show that Governor Vance had ever done a single official act during the war, while acting as Governor, but what was his duty as a sworn officer, and that his whole efforts were to discharge his duty faithfully as an officer. We feel assured that the people are now satisfied that a man who could make such a model Governor during a period of war could certainly be trusted in time of peace.

When Gov. Vance came upon the stand we never witnessed such hearty and almost uncontrolled enthusiasm. Almost the first word uttered by him struck the crowd as though some unseen power had electrified them beyond control. Gov. Vance was affected almost beyond utterance at this greeting from the people among whom he had grown from boyhood. Numbers were melted to tears as the Governor rose in eloquent and pathetic strains at meeting this scene at his old home-the welcome of specimen of an honest man, he having done his duty nobly under all the terrible scenes of the past. He referred to the grand association of rnvished his vision, and the same dashing rivnlets from the hillsides enchanted his ear, while hundreds of smiling approving faces carried back the speaker through scenes which made impressions indescribable.

The people after learning how well Vance did his duty in Vance would not be put on the defensive by Settle's feeble attacks. If a section of the infernal regions had been let loose on Settle, he would not have writhed nore than he did. I really thought it would kill him. And as for the revenuers, "red-leggot the very ----, well, he blew them clear up, this enslaught, except that Joe Turner had said so and so about prominent Democrats. # From the Charlotte Observer.

A gentleman of this city, who was in Ash-e ville on Saturday last, and heard the discussion between Governor Vance and Judge Settle, arrived home, last evening, and gives a glowing account of the debate. A large crowd was present. Judge Settle made the first speech confining himself almost altogether to Vance's war ernor Tilden for calling the attention of record. In the reply Governor Vance flayed him mercilessly, and drew down upon him the derision of the assemblage. Our informant, frauds, for recommending the inquiry, and who has heard Gov. Vance often, says this was the most brilliant and powerful speech he ever heard from him. He arraigned the Republican party for its numerous crimes, tore the mask from the face of Judge Settle, and achieved a glorious victory. The Republican candidate realized, too, the defeat which he had sustained, and hung his head in shame. It is said that if it had not been known that Governor Vance would follow him, the entire crowd would have left before Settle began to speak.

# Vance and Settle at Hendersonville.

A correspondent of the Raleigh News represents Settle as a badly used up man after his encounter with Gov. Vance, in the town of Hendersonville, on Thursday, the 27th ult. Settle did little else than wave the bloody shirt and appeal to old union men to arouse their prejudices about the war which has been dead more than ten years. He also attempted to prove that the Conservatives had stolen from government, when every one knows that the Republicans have held the keys of the United States Treasury for sixteen years. Below we give some extracts of their meeting as taken ly, a most estimable lady, died at Raleigh, on from the News. The report is too lengthy, so

we only give the most important features of it: We regret to learn that Col. E. W. Judge Settle has had so much to say about leserters that Governor Vance to-day made a desperate effort to get him to say whether desertion was right. The Governor appealed to him: then he begged him; he entreated him, and finally told him he would not and dare not tell whether desertion was right.

Governor Vance again called upon him to know if he was in favor of the civil rights bill as it originally left the House and went to the Senate, with the school and bnrying-yard clauses in it; but Judge Settle was as silent as "Hark, from the tomb, ye doleful the tomb. sound, mine cars attend the cry." The Governor again appealed to him to show where this great difference was in the expenditure of so much money; that it had cost more to run the Government eleven years since the war than eventy-two years before the war; but Judge Settle was silent! silent! silent! What a rebel Vance was l

In Governor Vance's rejoinder he read a cerain series of resolutions that Judge Settle introduced into the Legislature in 1854 in regard o the Fugitive Slave Law, showing that the Judge was six years ahead of time in getting eady for secession, and in fact, inaugurated secession in 1854 by the introduction of those resolutions.

overnor Vance and Judge Settle, it is evident that Judge Settle is very badly backed, and Governor Vance has got him under. I do not believe that Judge Settle has made a single vote, or even given satisfaction to his Republican hearers. # CURRENCY REFORM.

Reform is necessary, declares the St. Louis Convention, to establish a sound currency, restore the public credit, and maintain the national honor; and it goes on to "demand a indicious system of preparation by public economies, by official retrenchments, and by wise finance, which shall enable the nation soon to assure the whole world of its perfect ability and its perfect readiness to meet any of its promises at the call of the creditor entitled to payment The object demanded by the Convention is a resumption of specie payments on the legal tender notes of the United States, that would not only "restore the public credit and maintain the national honor," but would "establish a estly expended sum, let us see what the cost of sound currency" for the people. CIVIL SERVICE REFORM. The Convention justly affirms that a reform is necessary in the civil service; necessary to its purification; necessary to its economy and its efficiency; necessary in order that the ordinary employment of the public business may not be "a prize fought for at the ballot-box-a brief reward of party zeal, instead of posts of honor assigned for proved competency and held for fidelity in the public employ." The Convention wisely added that reform is necessary even more in the higher grades of the public

President, vice-president, judges, senators, representatives, cabinet officers-these and all others in authority are the peoples' servants. Their official duties are not a private perquisite. They are a public trust. Two evils infest the official service of the Federal Government. One is the prevalent and demoralizing notion that the public service exists not for the business and benefit of the whole people, but for the interest of the office holders, who are in truth but the servants of the people. He says "the necessities of war cannot be pleaded in the time of peace-the right of local self government, as guaranteed by the constitution, must be restored everywhere, and the impartial government, as it has prevailed, must be abandoned if our institutions are to be preserved." He then takes the edge off Hayes civil service utterance: "Reform cannot be accomplished by a change of any one man, even though it be the President. It requires an utter abolition of the corrupt system of administration. The President cannot be held responsible for all the abuses that prevail. In regard to the schools, Governor Hendricks says: "Any man or party that involves the schools in a political controversy is an enemy to the free school system. Any man or party that excites antagonisms between the sections of our country is an enemy of the country. All classes and races should be made to feel and know that they will be protected in the enjoyment of all rights recognized by the laws and Constitution, and the government of the United States should not be a partisan to the troubles that may arise in localities, but within its constitutional powers should be the protector of the rights and safety of all. But the true and reliable security for harmony and peace in all localities, and between all classes, is to place a party in power whose interest it is to promote harmony and peace, instead of a party that seeks to make political strength out of scenes' of violence and bloodshed." At a meeting of the Charlotte Merchants' and Farmers' National Bank, Dr. J. H. McAden ne of the Directors, was elected President, and J. R. Holland Cashier, was elected a Director, The Oxford Torchlight says: Friday evening

July 21st, two Misses Murray were killed by lightning near Brownesville, in Granville county. The lightning passed down the chimney and struck the two ladies who were cronched on a bed. We learn that the storm was quite severe in that section of the county. The Raleigh News says that Little Jimmie

Reeves, the only and much loved son of Mrs. Reeves, the lady proprietress of the Boyden House, in Salisbury, was brought down to Raleigh and placed in the Insane Asylum Sunday afternoon. Jimmie is only about 17 years old, and an only son. He was doated on by the family, and much loved and esteemed by every body in the place. The family has the entire sympathy of not only the citizens of Salisbury, but of the many friends of the family in this

THE PEOPLE WANT PROOF.

FRENCH LAWNS & WHITE GOODS.

J. L. FULKERSON. Salem, N. C., April 5th, 1876.

They were standing where a brook Bending like a shepherd's crook Flashed like silver, and thick ranks Of willows fringed its mossy banks-Half in thought and half in play Katie Lee and Willie Gray.

They had cheeks like cherries red, He was taller most a head; She with arms like wreaths of snow, Swung a basket to and fro, (As they loitered by the way,) Chattering to Willie Gray.

"Pretty Katie," Willie said, And then came a dash of red Through the brownness of the cheek, "Boys are strong and girls are weak, And I'll carry, so I will, Katie's basket up the hill."

Katie answered, with a laugh, "You shall only carry half;" Then said, tossing back her curls, "Boys are weak as well as girls." Don't you think that Katie guessed Half the wisdom she expressed?

Men are only boys grown tall; Hearts don't change so much at Al, And when long years from that day Katie Lee and Willie Gray Stood AGAIN beside the brook Bending like a shepherd's crook-

Is it strange that Willie said, While again a dash of red Crowned the brownness of his cheek, "I am strong and you are weak; Life is but a slippery steep, Hung with shadows cold and deep."

"Will you trust me, Katie dear--Walk beside me without fear? May I carry, if I will, All your burdens up the hill?" And she answered, with a laugh, "No; but you may earry half."

Close beside the little brook, Bending like a shepherd's crook, Working with its silver hands, Late and early at the sands, Stands a cottage, where to-day Katie lives with Willie Gray.

In the porch she sits, and lo! Swings a basket to and fro, Vastly different from the one That she swung in years agone-This is low, and deep, and wide, And has rockers at the side.

FRANK LESLIE, at his Mammoth Publishing House. 587 Pear reet, New York, issues seventeen bautifully illustrated news apers and magazines. Mr. Leslie was the first in the United States to undertake the publication of a weekly illustrated newspaper, and to him belongs the honor of being the publisher of the "Oldest Illustrated Newspaper in America." The person who secures the agency for these publications for this vicinity, and will select the person who secures the agency for these publications for this ricinity, and will give our citizens an opportunity of inspect-ing the several issues and copies of the eight magnificent chromos the choice from which is given with a subscription to rither of the Hinstrated Weeklies, will have a handsome and profitable employment. These papers are well known, and sell readily for from 10 to 15 cents on news-stends, and are now first offered through agents to annual subscribers, with a val-nable chromo, which to all lovers of art, is alone worth more than the subscription price. An annual subscriber to the ILLUSTRATED NEWSPAPER receives during the year 832 newspaper pages. Folded to the size of a large odtavo book the sugscriber would have 3,228 pages, equal to seven octavo books of ordinary size, say 460 pages each, and one half of hese pages would contain fine engravings, and for the cen tennial year will make the most accurate and valuable Illus-trated History of the National Jubilee published. We advise our readers, after they have subscribed to the Press to secure ne of Erank Leslie's illustrated periodicals, and with it the

Has issued nearly 2,000 policies. Prudent economical and energetic management has made it a thoroughly successful corporation, and the leading Life Company in the State.

Issues every desirable form of Policy at as low rates as are consistent with prudence and safety.—

Imposes no useless restriction upon residence or travel. Policies non-forfeitable after two or three annual payments. Has FIVE DOLLARS OF ASSETS for every dollar of LIABILITIES, with which to secure Policy Holders.

ALL LO SES PAID PROMPTL.

Its entire assets loaned and invested in NORTH CAROLINA, to foster and encourage Home Enterprises, and to protect and assist our own people. With these facts before them, will the people of North Carolina continue to send out of the State annually, thousands upon thousands of dollars to build up Foreign Companies, when they can secure insurance equally reliable and on as good terms in their own.
